EXPERIENCE

Work

2023-2025

Software Developer @ expertshare ag

Developed and maintained SaaS platforms and CRM websites (Webflow, WordPress, Framer). Improved UI/UX for better usability and brand consistency. Supported OBS-based live streams with multi-camera setups for hybrid events.

Private Projects

Jul. 2025

Barcode to shopping list (v2)

Complete rebuild using .NET, PostgreSQL, and WhatsApp Meta API Webhooks. Focused on scalability and API-first design

Mar. 2025

Barcode to shopping list

A WhatsApp bot for managing shopping lists using text input or barcode images.

Mar. 2025

Rive Animation Handler

Integrated Rive animations into WordPress via Elementor to create dynamic, viewport-triggered visual effects.

Dec. 2024

BusinessScraper

A Python tool that uses the Google Places API to retrieve business information based on location.
